PILOT BOARDING ARRANGEMENTS ARE TO BE IN ACCORDANCE WITH
IMO RESOLUTIONS AND IMPA RECOMMENDATIONS

PILOT LADDER RETRIEVING LINE

The retrieving line on the bottom of your pilot ladder is a serious hazard to the pilot.

Notice number 276 of the International Maritime Pilots Association states:

" The use of retrieving lines should be discontinued."

However, if it becomes absolutely necessary to use a retrieving line, it should be made fast to the extreme after end of the lowest spreader step (5 steps from the bottom of the ladder)
